GOV. BECKHAM IN MARION.

Several Thousand People Participated In The Democratic Rally Friday—A Great Demonstration.

GOVERNOR MAKES STRONG SPEECH.

GOVERNOR J. C. W. BECKHAM.

(By Walter Walker)

Friday was Beckham day in Marion and the day will go down in local history as the date of one of the greatest and most enthusiastic political rallies ever held in the county. The crowd in town at a very fair estimate numbered at least 4,500. People were here from every section of Crittenden county, and many came from Livingston. The day was an ideal one for speaking; truly Democratic weather prevailed. At an early hour people began to arrive, and they came by the scores until past noon.

Gov. Beckham, Col. W. P. Thorne, and Congressman Sherley arrived on the noon train from Sturgis. The party was given a magnificent ovation at the depot, where between fifteen hundred and

Mayor John W. Blue introduced Gov. Beckham in a brief but splendid manner. Mr. Beckham was in excellent condition and made a rousing speech, presenting an unanswerable array of argument. In his opening remarks he spoke in highly commendable terms of Ollie James. He said that the Democratic party of Kentucky owed as much to Ollie James as it owed to any one man, and that if he was elected Governor of Kentucky he would owe a great debt of honor to Congressman James, who in every campaign was untiring in his work for Democracy. There was not a weak point in Beckham's address and he made a wonderful impression upon his hearers.

Gov. Beckham made plain his position on all the questions of interest to the State and defended his administration with facts and figures that can not be set aside. He took up the charge made against him by his opponents and revealed their falsity. His speech was clear and free from abuse; his manner of speaking clearly shows him to be a gentleman of high intelligence.

Following the Governor Congressman James introduced Congressman Sherley of Louisville, whose fine address was well received. He is an able and polished orator and a deep thinker.

C. L. W. P. Thorne, candidate for Lieutenant Governor, made the closing speech. He made the vast assembly roar with laughter, and his ridicule of the Republican party was merciless and telling. He is a remarkable speaker, and his humorous manner of presenting a logical array of facts has a great effect.

The audience was highly enthusiastic and every speaker was heartily applauded.

At the conclusion of the speaking Gov. Beckham stood on the court house steps and shook hands with several hundred admirers.

The crowd that heard the speeches Friday was as large again as the crowd that heard W. C. Owens and Judge Pratt Saturday, Oct. 11, which was pay day for three mining companies and the school teachers; but Friday, Oct. 16th, the people came to hear Beckham. It was not payday.

The Madisonville Brass Band furnished splendid music during the day.

The school was dismissed in the afternoon in order that the pupils might see and hear the Governor of the Commonwealth.

Many ladies were in the audience and at the conclusion of his

speech Gov. Beckham was presented with an elegant bouquet.

Circuit Judge Gordon and Commonwealth's Attorney Gray were in the city and occupied seats on the speakers stand.

In one of the offices of the court house a picture of Col. Belknap was placed against the window pane facing the crowd; in presenting Gov. Beckham Mayor John W. Blue caught the crowd when he said that he took pleasure in presenting a governor who did not have to come before the people screened by glass (pointing to Belknap's picture).

The demonstration Friday was certainly a great one, and did much good for the Democratic ticket.

RICH STRIKE

By the Mountain Zinc, Lead and Flourspar Company.

The Mountain Zinc, Fluor Spar company, which was lately organized by Jos. L. Friedman, W. D. Greer, Wm. Marble, Jas. A. Rely, E. P. Gilson and George C. Hughes, well known business men of Paducah, Ky., has been developing its mineral property about a half mile northeast of the Crittenden Springs and it has "struck it rich."

The mines are situated in the noted mineral district shown by the geological surveyor's report, sent out from Washington.

This report and map show many fractures in the earth's surface, and mineral bearing veins in that locality.

Within about one and one-half miles of these mines there

is the "Old Jim" mine, on the Eureka vein, owned by Blue & Nunn;

the Clarke mine, on the same vein;

the Columbia mines, on the Columbia vein; the Clement mines on the same; the Memphis mines, on the Memphis vein, and now the

mines of this company on the celebrated Columbia, and on the Beck veins, both of which cross

the property of this company very close together.

There are also in this locality

numerous developments that are

now being carried on by several

different companies.

The Mountain Lead, Zinc,

Fluorspar company has opened up

two mines on the side of the

mountain and near the great upheaval which has taken place by volcanic action or some internal disturbance of the earth's surface.

In the immediate vicinity of these

mines there are great, tall, craggy

hills, crowned with enormous rocks, surrounded by deep gorges and valleys, which make it a veritable Rocky Mountain scene.

This company is now working in two true fissure veins, one on the Beck vein, which is named the "Lone Rock" mine, where they have gone down about 40 feet on a vein of lead, and has begun drifting, and is now getting out large quantities of lead and some zinc.

At the other mine, called "Struck It Rich," on the Columbia vein, a fine lode of carbonate of zinc has been uncovered within 5 feet of the surface, and is 10 ft. in width. There have been a good many tons of this valuable ore and some lead taken from this mine, and the company has now commenced to drift and take out large quantities of ore. Experts say these mines will pay from the very start. Besides many tons of mineral now on the dump, there are tons of it in sight. An analysis has just been made of the ore from those mines. The lead assays 67.0 and the carbonate 47.8, which is over the average.

The company hauled through Marion last week and shipped by railroad to Paducah, a fine specimen taken from their mines in one lump and weighing between 500 and 600 pounds.

These mines are right on the survey made by the I. C. railroad, from Cave-in-Rock to Marion. When this gap from Cave-in-Rock to Eldorado is built to Marion, these mines will have superior advantages in the way of cheap transportation, and save 90 cents per ton, which it now costs to haul products to Marion.

When we get more capital and a few more wide awake business men in this great mineral belt, and a few more fortunes are made, then the old croakers will take a back seat.

OLIE JAMES

Makes a Rousing Speech for the Democratic Ticket.

Our brilliant young Congressman, Hon. Ollie M. James, of Marion, made a rousing Democratic speech in Cadiz last Monday. He spoke one hour and twenty minutes and when he concluded there was not standing room in the court house.

He showed that the administration of Gov. Beckham was one of the ablest in the history of the State, and pointed to the fact that Kentucky, under Democratic rule was one of the four States of the Union that was out of debt. He showed that the collection of the war claim had cost Kentucky less than any other State in the Union, and referred to the fact that only a few days ago the Republican Governor of West Virginia had employed C. C. Gilbourn to collect the claim of that State at 10 per cent, when Kentucky's had cost only five and five-eighths per cent.

He went after Mr. Belknap and the Republicans in great shape, and said that while they claimed their platform to be opposed to assassination, that not one of them in Kentucky but opposed the efforts that were being made to bring to justice those who had foully assassinated Gov. Gosnell.

He paid a glowing tribute to the district and county nominees, and said it was the duty of every Democrat to put his shoulder to the wheel and see that the ticket was elected all along the line.—Caldiz Record.

A New Railroad Probable.

A corps of railroad engineers under the direction of S. G. McWade started a survey for a railroad from Rosy Claire, Hardin county, Tuesday morning. The proposed route will run through Bowlesville township and cross the Saline creek near the Saline mines; thence through the center of Hardin county to Rosy Claire. The crew now consists of ten men and will be increased to from fourteen to sixteen in a few days.

The prospects for the road being built in the near future are exceedingly good, and with the proper support of those who would be most benefitted in this and Hardin counties, it is practically assured.

The surveyors have run about seven miles of the route and the survey will be completed in less than three weeks.—Gallatin Democrat.

GOEBEL MONUMENT

To Be Unveiled on Anniversary of
The Governor's Death.

Arthur Goebel, brother of the late William Goebel, is in New York to inspect the model of the statue to be erected in memory of the assassin's victim. The monument, which is to cost \$15,000, donated by public subscription, will be erected in the Frankfort cemetery.

The figure is one foot high. It shows Mr. Goebel standing beside a gatting column, his left hand slightly behind him, holding a manuscript, while his right hand falls motionless with hand firmly clinched.

The statue, with its pedestal when completed, will rise thirty-two feet from the base. The pedestal will be of granite and adorned with a female figure of Fame, prostrated with grief. This scene will be brought out in relief in bronze. It is hoped to unveil the statue on the anniversary of the Governor's death.

BLOOD POISON.

News has been received by Paducah relatives of another sad bereavement, which has befallen Dr. David Gardner, formerly of this city, but now of Lehigh, Indian Territory.

A few weeks ago his little daughter, Mary Ellen Gardner, aged 16 years, accidentally cut her foot on a piece of glass. The wound appeared of a trivial character, but blood poison developed, and after much suffering the little one expired on October 14th. Papers and letters giving detailed accounts of the death reached here Friday evening.

It has only been a few months since Dr. Gardner lost his wife by illness, leaving him with a large family of little children.

Dr. Gardner is a son of Mrs. S. M. Gardner, and a brother of U. S. Commissioner W. A. Gardner — News-Democrat.

Mr. Gardner is a cousin of the editor of the Press and has our sympathy in his bereavements.

SEARCH MADE.

Bishop's general merchandise store at Jay Ky., was broken into Monday night and a lot of clothing stolen. The building was then burned.

Wednesday two men from Jay were here trying to locate a couple of suspicious characters who were seen in Jay the day of the robbery.

They stated that the characters were young men, well dressed and had crossed the river from Illinois.

Jay is a little hamlet just across the river from Golconda, Illinois. The alleged robbers had not been found this morning — News-Democrat.

In Memoriam.

In memory of Bertha Williamson who was murdered October 22, 1902, aged 18 years, six months and sixteen days.

One day a fragrant flower
Was placed upon my breast,
I kissed the sacred treasure
And laid it down to rest;
A tender blooming rosebud
Still moist with morning dew,
An angel gave it, saying:
"I lend this bud to you."

I dearly loved the flower
And pressed it to my heart,
We never wished to sever
We would not live apart;
I watched it without ceasing,
I saw the bud unfold
And blossom into beauty,
With charms that never grow old.

My love for her grew stronger,
As months and years went past,
We spent the time together,
I thought that it would last,
But lo! one October evening
A fiend drew near
To take away the flower,
That I loved so dear.

I asked "who claims my treasure
The object of my love?"
The troubadour was the answer,
The Husbandman above!
The Father has your darling
Fear not the parting sting,
He will weave it in a garland
For our beloved King.

I take this precious treasure,
Remove it from your care,
And flee away to Jesus
To place it gently there,
Among the choicest flowers
That be upon his breast,
Till he may share the sweetness
That necks her memory blest.

My heart will break with sorrow
Without my darling near,
Why take thus I loved one from me
And leave me lonely here?
Just why I cannot tell you
The gardener only knows,
Tis well I'm very certain,
To spare him this sweet rose.

I said farewell my darling
Then kissed the precious one,
And whispered in my sorrow
Dear Lord thy will be done;
Some time I'll know the reason
If it is best to know,
So Father take the flower
That I have cherished here.

CARBORUNDUM.

There is a great demand for materials required by the grinder and polisher of metal, rubber, marble, ruby, granite, etc. Articles made of carbide have come to play an important part in supplying those requirements, because of carbide's pre-eminence adaptability as an abrasive, and because of its extreme hardness. Carbide also has remarkable refractory and electrical properties, which have greatly extended its use in the arts. It is well known that the carbide company of Ningau Falls, N. Y., claims to be the only manufacturer of carbide. In fact the company states that the carbide company formed for its use, and is a registered trade-mark and therefore being personal property. The Carbide Company's manufacture embraces carbide crystals, grains and powders, wheels, sticks, knife shar-

pears, hones and bricks, paper and cloth, metal goods, etc. Its plant is as complete as science and art can make it, and the processes are carried through from the raw materials to the finished article.

The Carbide Company is one of the most creditable specimens of the printer's art in trade publications that has recently been issued. This book gives in most complete form the whole story of carbide and its development and manufacture, tells of its valuable qualities and to what great variety of uses it is being adapted.

An Animal Story For Little Folks

What Is Style?

Mr. Goose and Mr. Green Bull Frog chanced to inhabit a pond quite near a fashionable hotel in the country.

Their little pond was not much larger than they needed for their comfort, but on the booklet advertising the hotel it was called "the lake."

Every evening the ladies and gentlemen from the hotel would put on their fine clothes and walk around the pond and say:

"Oh, look at the swan!"

"Oh, see the fine frog!"

Both Mr. Goose and Mr. Green Bull Frog were much pleased at being so

Should plan this day to do alone
The good deeds to be done —

Should scatter smiles and kindly words,
Strong, helpful hands should lend,
And to each other wants and cries
Attentive ears should lend.

If every man and woman, too,
Should join these workers small —
Oh, what a flood of happiness
Upon our earth would fall!

How many homes would sunny be,
Which now are filled with care!
And joyous, smiling faces, too,
Would greet us everywhere.

I do believe the very sun
Would shine more clear and bright,
And every twinkling little star
Would shed a softer light.

But we instead, must watch and see
If other folks are true,
And thus neglect so much that God
Intends for us to do.

BOYS BE CAREFUL WITH AXES.

Near Valdosta, Ga., the six-year old son of F. B. Rivers died from the effects of a blow on the head with an ax in the hands of his brother. The boy was hit with the ax accidentally by his brother while chopping wood several days ago, but the wound was not regarded as a serious one at the time. Later blood poison intervened and resulted in his death.

DOMESTIC SIGNALS.

The father of a large and expensive family had brought a guest to dine with him, says the Chicago Tribune. The dinner was in progress. He helped the guest liberally to everything that was on the table, but before serving the members of the family he glanced at his wife who made a slight and almost imperceptible signal to him in accordance with some preconcerted code, and it worked in practice as herein set forth: "Caroline," he said to the eldest daughter, "shall I help you to some more of the chicken-n. m. k?"

"Just a little, please, papa."

"Some of the mashed potatoes—a. y. w."

"If you please."

"With gravy—n. m. k?"

"No thanks. No gravy."

"Johnny will you have some more stewed tomatoes—n. m. k."

"No thanks."

"Some of the mashed turnips—a. y. w."

"If you please."

"Pardon me, Mr. Torgson," the guest said, "but you have excited my curiosity. May I ask what 'a. y. w.' and 'n. m. k.' mean?"

"Huh!" spoke up Johnny, "I thought everybody knew that. Them letters mean 'all you want' and 'no more in the kitchen.'" —Selected.

A MOTHER'S HIT.

The Woolen Mills advertised in the Gleaner that they would sell boys knee pants from "6c to 26c a leg, seats free." Just at the beginning of the school, this of course attracted a great deal of attention among the mothers. They went to the Woolen Mills in crowds, and had the little "legs and seats" of their young "hopefuls" duly clothed at the advertised price. Everything went along nicely. The Woolen Mill people were just congratulating themselves on their new and catchy ad, when in walked a bright and enterprising young mother and called for a dozen seats without the legs. — Henderson Gleaner.

FATAL CRASH.

At the undertaking establishment of Nance & Spaulding, upon South Third, near Court street, there now lies the remains of Engineer George Dulaney and fireman C. L. Hutton, who were bur-

ned to death in flames that enveloped the engine and freight cars at the wreck at the long trestle near Calvert City, sixteen miles above this city, night before last. Of the former there are only a few bones held in a piece of paper, while of the fireman the lower limb bones and a portion of the body were recovered from the embers. The remains were brought here at 2 o'clock yesterday afternoon.

Wednesday night an extra freight train pulled out of here bound towards Central City in charge of conductor Theodore Decker, of this city. Engineer George Dulaney, who came here only a few weeks since from Minnesota and was making his second trip out over the division, with Young Eden as fireman, while C. L. Hutton was along to learn the road as extra fireman. Pulling out here, the crew got orders to stop at Clark's Station, several miles above here, and wait for the first section of regular freight No 151, which was coming this way in charge of Conductor F. M. Hill, and Engineer H. Scarborough.

The extra crew got their orders mixed and thought they read to meet the regular freight at Calvert City, hence when reaching Clark's Station they went out by at forty miles an hour, headed for Calvert City. In doing so they crashed into the regular freight which had come on by Calvert City, upon the long 75-foot trestle that stands 11 feet above ground. All of both crews jumped except Engineer Dulaney and fireman Hutton, of the extra, who went down with the engine. The wreck caught fire and was burned also. The wreck will cost the rail road heavily.

Other than the engines, four cars of the regular and seven of the extra were demolished. The trestle caught fire and was burned also. The wreck will cost the rail road heavily.

Dulaney resided at the boarding house of Mrs. Mary Bailey, of Broadway, near Ninth street, and his young wife is now there. Hutton resided at Cumberland Furnace, Tenn., where his remains will probably be sent upon relatives being heard from. — News-Democrat.

This week we publish the "Message to Garcia," a story of the Cuban war, and men who assisted the government in time of need. Every man or woman who has to deal with children and employees will appreciate this comment on life as we find it most often. We would be glad every boy in Marion, or in our scope would read it and profit thereby.

We all have reason to be proud of our Governor, the young champion of democracy; for while young in years he has shown a wonderful adaptability to the affairs of state and has made a record which will go down in history as one of the best administrations the commonwealth has ever enjoyed. He is a magnetic speaker, a polished gentleman and a parliamentarian unequalled for one of his age. Kentucky, with him at the helm, will be safe and all her interests keenly watched.

The looks of a city or town have more to do with the character of its people than is dreamed by the nonobservant. Beautiful surroundings unconsciously make their impress upon the character,

increase the love of neatness and order, and elevate and refine the nature. Uncleanness and unsightliness have just the opposite effect. He who assists in making Marion more beautiful, therefore, is no less a benefactor than he who assists in adding to her wealth and business importance.

The recent decision of the Alaska Boundary Commission is a complete victory for America. All the waterways to the northern field were taken from Canada except the Portland canal, and no American citizen will lose a foot of ground.

The long standing dispute was only settled after a week of keen trying, secret deliberation between the arbitrators.

No bitch occurred during the entire deliberations, and as these progressed the confidence of the American Commissioners that a decision substantially upholding the American claims would be given increased, but it was admitted from the start that it would be necessary to agree on some compromise on the Portland canal which was done.

Governor and Mrs. Beckham spent Sunday last in Paducah. The Governor spoke Monday to one of the greatest crowds ever assembled in Mayfield. The messenger says:

"Early this morning hundreds of people from all parts of the county began arriving in order to be here and see and hear Governor Beckham and Congressman Oliver James, two of the most popular Democrats in the State, with the Democratic hosts of Graves county. The Democratic boys are just beginning to get fully in the harness and they came here today to have the finishing touches put on them."

The indication is now that the largest Democratic vote will be polled for governor this time in the county that was ever polled before. There is no disturbance among the Democrats here, and they almost to a man will go to the polls and vote the straight ticket. There is great enthusiasm among the boys and a great vote will be polled.

Crittenden county has a treat this week in having Judge J. Fleming Gordon, Hon. John L. Grayot and T. Everett Butler within her gates. They will visit every section of the county from Shady Grove to Dycusburg and Tolu. Judge Gordon, during his short term of office has endeared himself to the people of this county by his uniform courtesy to all, his fair and impartial rulings, and his genial and magnetic manner. Although a young man he has had much experience in law and has had the advantage of his father's counsel and help in the practice of law and his decisions stand high before the Court of Appeals. As to John Grayot, he is almost one of us. He was educated here, and spent much time here and had friends by the score here two decades ago when as a boy full of youth and ambition he came to Marion to enter school. He has still the same cheerful and congenial disposition, and is admired and indeed, beloved in Marion and Crittenden county by a host of friends. He has proven his ability and deserves the recognition which will be given him Nov. 3rd.

The looks of a city or town have more to do with the character of its people than is dreamed by the nonobservant. Beautiful surroundings unconsciously make their impress upon the character,

Prices For Zinc Ore.

The rate at which carbonate of zinc is sold is beginning to be of considerable interest to our producers. The following is the present method of settlement in shipments, always dealing the freight which is \$3 per ton to either Mineral Plant, Wis., or Joplin, Mo. the only two oxide plants that are available to this district.

The base is calculated on per com metallic zinc in the ore which is worth \$12.00 per ton. For every per cent under 30 a penalty of 10 cents is exacted and for each per cent above 30 a premium of 80 cents is allowed. On this basis a 20 per cent ore could not be shipped. A 30 per cent ore would be worth \$16. A 13 per cent ore, which our carbonate when properly cleaned generally averages, would bring \$22.00 at destination or \$19.10 on board cars at Marion.

He stated that his father, Newt. Horney hit him with a glass which caused the wound. Whether it was accidental or intentional we have not been able to learn.

Mrs. Anna Orme, who is now the guest of her sisters, Mrs. Woods and Mrs. Blue, will leave soon for Uniontown to visit relatives and friends. She will also go to Evansville to consult a physician. Mrs. Orme is not enjoying as good health as usual.

W. S. McNeely and wife, of Durango, Colo., are visiting their relatives and friends in this vicinity. This is their second visit since the civil war. They are all familiar with the old saying, "We are not to stand still; we must not go back." I wish we each might say, "we will not go back." Let us "hitch our wagon to a star," as we used to do when we were school girls. We can not rise higher than our ideals, as we all know. I know of no more royal road to success in all that is broadening and elevating in thought, in enriching and happyfying our lives, in teaching us to be of service to others, than this same course of study—the Chataqua Course. But let us remember that we have not half tried. Let us this year, where we have spent a few minutes or perhaps half an hour, double the time. We can, if we are systematic in our duties and pleasures. It is impossible to estimate the benefit of one hour of solid, sound reading each day.

"Another thing, let us be more punctual in attendance. We have read and heard all of our lives, of the value of punctuality, but we have scarcely begun to appreciate its importance. We might as well attempt to build a house of sand on a sea-beaten shore, as to try to keep a society, or organization, or undertaking of any kind up to its mark by intermittent effort. We must remember the case of the hare and the tortoise if we want "to get there."

I grieve to say, shall work in another and distant field, but the days of "hang sony" will remain with me. I can truly say, "I count myself in nothing so happy as in soul—remembering my good friends." The tenderest memories of my heart will cluster round Marion. It was here I spent some of my happiest days as a young lady; 'twas here I was married; 'twas here most of my children were born; 'twas here I spent a few delightful years with my father and mother, now entered into their rest; and, it is here I have enjoyed the fruition of ripe friendship, generally, and especially with the ladies who form the choice and charmed circle of the Noirma Club. I can think of no more fitting words with which to close than those of Browning:

"What a thing friendship is, world without end!

How it gives the heart and soul a stir up,

As if somebody broached you a glorious sunlet,

And poured out all lovely, sparkly sunlight,

Our green Moldavia, the streaky syrup Cotnor, as old as the time of the Druids—

Friendship may match with that Mon-

arch of fluids;

Each supplies a dry brain, fills you its ins-and-outs."

The members of the Epworth League gave a farewell reception to the families of R. C. Walker and P. H. Woods. Both families are well represented in the League as well as other church work, and will be greatly missed. The reception was held at the residence of H. A. Hayes.

Refreshments were served and an enjoyable evening spent by all present,

and most everybody in town was there.

The affair should certainly be very gratifying to those in whose honor it was given.

Mrs. J. A. Sherrill and child will leave for her home in Meridian, Texas, tomorrow, after several weeks visit to her old home and associates in this place and also the Salem section. This is Mrs. Sherrill's first visit in 18 years and she found many changes. She did not know her brother, Prof. Chas. Evans, when he approached her in the depot at Princeton, but he did not stand long on formalities when he saw and recognized her as his sister whom he had not seen for so long. Her husband is a planter and also owns a jewelry establishment.

TAKE YOUR TIME.

The following will no doubt be of interest as well as beneficial to our readers, when getting out of bed:

Don't jump up the first time your eyes open. Remember that while you sleep the vital organs are at rest. The vitality is lowered, and the circulation is not so strong. A sudden spring out of bed is a shock to these organs, especially to the heart, as it starts to pumping the blood suddenly, says Medical Talk.

Take your time in getting up. Yawn and stretch. Wake up slowly. Give the vital organs a good chance to resume their work gradually.

Notice how a baby wrinkles up. It stretches its arms and legs, rubs its eyes and yawns and wakes up slowly. Watch a kitten wake up. First it stretches out one leg then another, rubs its face, then rolls over and stretches the whole body. The birds do not fly as soon as their eyes are open; they ruffle their wings and stretch the legs. This is the natural way. Don't jump out suddenly. Don't be in too much of a hurry, but stretch and yawn and yawn and stretch.

Members of Mob Indicted.

Nashville, Oct 7.—The grand jury of Moore county has returned a joint indictment against twenty-two members of the mob, that lynched the negro Allen Smith on Sept 24.

The defendants were indicted for murder in the second degree, as the attorney general and grand jury thought this course was prudent and more likely to result in conviction than would an indictment for murder in the first degree.

The indictment causes the case to be bailable and nearly all of the defendants will be released on bond.

A LONG TIME IN JAIL.

Oakland, Cal., Oct 7.—George Jones, who had been in the county prison eighteen years awaiting trial has just died there, aged 93 years. He had been incarcerated since January 18, 1885, for the murder of Lorenzo Sutilo. He was convicted June 5, 1885, of the murder and sentenced to be hung on July 11. He succeeded in getting a new trial. About the time the trial was to begin Jones was taken with a stroke of paralysis and has never been able to leave his bed. Time and again the case was set for trial, but a continuance was always granted.

THROWN FROM BUGGY.

Trenton, S C, Oct 7.—Late yesterday, while driving from Trenton to her home, Mrs R. B. Tillman, wife of United States Senator R. B. Tillman, and her son were thrown from their buggy by the horse running away. Mrs Tillman and her son both sustained severe gashes on their faces, but physicians state their injuries are not serious.

Strength and vigor come of good food, duly digested. "Force," a ready-to-serve wheat and barley food, adds no burden, but sustains, nourishes, invigorates.

FOR STREET WEAR.

Gowns Have Cape Effects—Stoles and Hats Should Correspond.

The gowns made for the early autumn are usually finished with some kind of cape effect, and later on we shall supplement our costumes with large capes of fur. The coat or blouse will have a deep cape effect finished with fur. Narrow fur trimmings and fur tails will be in great request during the coming winter, for a warm costume always looks well adorned with fur.

So far blue and brown are likely to be the leading autumn colors for

GRAY COSTUME

gowns, and teal will still be in great demand. A very brilliant emerald green is to be greatly used for trimming, and this new color is very intense than the vivid emerald shade of last season.

When a wide gray stole or huge hood is worn the figure condenses the figure and creates a slouchy effect. The new autumn fashions with the left side turned over to the crown, is very effective with the bushy stole or bonnet. The flat spread capemac is most in with the cape effect.

The picture shows a costume of dark and light gray cloth, with the latest double sleeve. JUDIC CHOLLET.

CONVICT ROAD WORK.

Prisoners Building Good Highways In a Georgia County.

Bibb county, Ga., is divided into nine militia districts, and there are three road commissioners for each district selected by the grand jury for a term of four years. The appointments are arranged so that the entire board is not changed at one time, says the New York Tribune. Representative men from the different parts of the district in which they reside are chosen for this position. The commissioners meet once a month and determine upon the disposal of the force for the month and also attend to other routine business in connection with road working.

The roads are worked by the chain gang, composed of the convicts from the city court and from the re-convict court. The commissioners have no

engine, but the force is increased and the method of working is determined by the superintendent. The gang is supplied with a complete outfit of machinery for making dirt roads and addition to surfacing does such grade as may be necessary. It is estimated that in five years more all the roads in the county will be of easy grade and properly surfaced. It has been found by experience that a mixture of sand and sand makes a remarkable hard surface, almost impervious to water, while giving a sure foothold for the horses.

The method pursued in working roads is that, where the foundation is sandy, clay is hauled in and a layer where the foundation is clay sand is added. The roads are crowned to shed the water into the sides of the road. No curbing is used, but on the steepest inclines half round sewer tiles are sometimes placed to prevent the soil from washing out. The height of the crown is determined by the superintendent, who is governed by the grade.

There are in the county about 125 miles of public roads. The cost of maintaining the gang is about \$20,000 a year, which includes \$8,000 part to the city of Macon for her interest in the convicts.

GOOD ROAD NOTES.

What Is Being Done in Various States to Improve the Highways.
The state Senate of Florida has passed a resolution memorializing congress to pass the Brownlow bill.

In Maine 152 towns have made special appropriations for the improvement of state roads with state aid as against 100 towns last year.

Joseph W. Hunter of Jenkintown has been appointed state highway engineer of Pennsylvania and will therefore have charge of the expenditure of the largest sum ever appropriated at one time by any American state for road improvement.

Schenectady county, N. Y., has successfully tried the experiment of placing the prisoners confined in the county jail upon the roads in working out a contract for road improvement which was awarded to the county. One result of this is the avoidance of Schenectady county by tramps.

That Florida will soon be among the states that lead in the mileage of good roads is indicated by the fact that there is now over \$200,000 available in the internal improvement fund and that there is a reserve of 500,000 acres of swamp and overflowed lands, worth from \$1 to \$5 an acre. By a recent act of the legislature this was made available for the building of hard roads.—Good Roads Magazine.

Trunk Lines of Good Roads.

The state aided highways of Massachusetts and Connecticut have been improved with the district idea of making trunk lines of good roads. Thus in Connecticut are fourteen main lines of 1,400 miles nearly completed and touching a majority of the towns. There is a 120 mile line along old Boston turnpike, near the sound shore, and fourteen trunk lines running north across the state and connecting in some instances with similar improved roads in Massachusetts. Thus is suggested the probability of national trunk lines of good roads, a prospect which grows brighter with the increasing interest in the plan project for national aid and supervision.

Good Roads Needed.

The subject of good roads cannot be much longer kept in the background, says Farm and Ranch. Trolley cars from one town to another, rural telephone and free rural mail delivery are good enough in their way, but paved country roads are necessary to the well being and happiness of the rural districts. When this is accomplished then will the best elements of city life seek country homes for comfort, escape from the evils of city life to evade the heavy taxation necessary to support urban population, and to enjoy the freedom of the country without the smoke and din of the city streets.

Do Good—it Pays.

A Chicago man has observed that
good deeds are better than real estate
deeds; some of the latter are worthless.
Act kindly and gently, show sympathy
and lend a helping hand. You cannot
lose by it. Most men appreciate
a kind word and encouragement more
than substantial help. There are per-
sons in this community who might truly
say, "My good friend cheer up.
A few words of sound reasoning & a good
Remedy will do you good, cold
and its malinger whatever from pneu-
monia when you use that medicine. It
always comes. I know it for it has help-
ed me out many a time." Sold by Woods
& Orne.

Duty Involves Obedience.

Every duty, even the least duty
involves the whole principle of
obedience. And little duties make
the will dutiful, that is, supple
and prompt to obey. Little obedi-
ences lead to great. The daily
round of Duty is full of probation
and of discipline. It trains
the will, heart and conscience.
We need not the prophets or apot-
les. The commonest life may be
full of perfection. The duties of
home are a discipline for the min-
istries of heaven. H. E. Man-
ning.

Accept No Substitute.

There is nothing just as good for Ma-
laria, Chills and Fevers as Dr. Menden-
hall's Chill and Fever Cure. Take it as
a general tonic and at all times in place
of quinine. If it fails to give satisfac-
tion mail the front of the cartoon to J.
C. Mendenhall, Evansville, Ind., and
get your money back.

ALMOST A WHALE,

A turtle, which is declared to be
the biggest of the kind ever seen,
was caught some time ago on the
New Jersey coast. Its weight is
1087 pounds. The length of its
shell is ten feet three inches, and
its width is six feet seven inches.

A dozen men can stand on its back
with comfort.

HOW THE FATHER CARES.

"I grew up in a family where
there were several children, and
never a superabundance of money," said a gentleman, speaking of
his boyhood. "I knew my father
loved me, of course, but those last
two words might pretty nearly
have expressed my view of the tie
between us if I had considered it
at all. He was kind but he was
naturally reserved and he was a
very busy man."

"When I was a lad of eighteen I
went away from home and among
strangers for the first time. I had
obtained a situation in a town
some two hundred miles distant,
and I was greatly surprised one
day to see my father come walking
into my boarding place. He had
intended to leave his business
for two or three days and he had
come to spend his brief holiday
with me."

The surprise of it grew upon
me. I knew how he must have
planned for it, have counted the
money the journey would cost and
have given up other things for the
purpose of being with me, and I
suddenly understood as never be-
fore my place in my father's heart.

He visited the store where I was
employed, shared my plain little
lodging room, and, when I was
free we had one long, happy day
together, wandering about the lit-
tle old town. I went with him to
his train and returned through
the streets alone, saying to myself, "I didn't know father cared
for me so much."

"He never suspected what re-
velation that was to me, nor how
from that day to the day of my
death it has put new meaning into
the words, 'Our Father in Heaven!'"

Dieting Invites Disease

To cure Dyspepsia or indigestion it
is no longer necessary to live on milk
and toast. Starvation produces such
weakness that the whole system becomes
an easy prey to disease. Kodol
Dyspepsia Cure enables the stomach and
digestive organs to digest and assimilate
all of the wholesome food that one
cares to eat, and is a never failing cure
for indigestion, dyspepsia and all stomach
troubles. Kodol digests what you
eat—makes the stomach sweet. Sold
by all druggists.

NEW INVENTION.

A Minneapolis man has an in-
vention for purifying water by the
means of an electric current. The
system has been tested by the city
bacteriologist and reported on fa-
vorably, being cheaper than the
use of any of the accepted meth-
ods of purifying water. The test
showed that the current elimi-
nated 92 per cent of the bacteria
in the water.

A Perfect Painless Pill

It is the one that will cleanse the system,
set the liver to action, remove the bile
clear the complexion, cure headache
and leave a good taste in the mouth.
The famous little pills for doing such
work pleasantly and effectually are De-
Witt's Little Early Risers. Bob Moore
of Lafayette, Ind., says: "All other pill
I have used gripe and sicken, while De-
Witt's Little Risers are simply
perfect." Sold by all druggists.

GIVEN THIRTY DAYS.

Sioux City, Iowa, Oct 7.—Thos. Ward,
Vice President of the Le-
murs national bank, who pleaded
guilty to embezzlement in the
sum of \$13,000, was today senten-
ced to pay a fine of \$12,000 and
to remain in jail until that sum is
paid.

It was discovered today that the
sentence given Mr. Ward will
amount to his serving just thirty
days in jail. There is a special
Federal statute providing that
when a convict is subjected to a
fine which he can not pay, he may
go before a United States commis-
sioner after serving thirty days,
show that he has no property su-
bject to execution in excess of \$20,
and obtain a legal discharge.

Run a Nail Through His Hand.

While opening a box J. C. Mount, of
Three Mile Bay, N. Y., ran a ten penny
nail through the fleshy part of his hand.
"I thought at once of all the pain and
soreness this would cause me," he says
"and immediately applied Chamber-
lain's Pain Balm and occasionally afterwards.
To my surprise it removed all
pain and soreness and the injured parts
were soon healed." For sale by Woods
& Orne.

A Story of Early American Times

Beginning soon we shall run
in these columns one of the
most popular novels of the
decade. It is a tale that
has won the highest praise
of the critics and been read
with eagerness by those
who purchase new books
and pay \$1.50 each for them.

Alice of Old Vincennes ..

... By . . .

Maurice Thompson

You have heard of it, no
doubt, because it has cre-
ated a big stir in the novel
reading world. You can
read it now and at little or
no expense.

Don't Miss the First Chapters

YOU CAN NEVER TELL.

You can never tell when you send
a word.

Like an arrow shot from a bow
By an archer blind, be it cruel or
kind.

Just where it will chance to go,
It may pierce the breast of your
dearest friend.

Tipped with its poison or balm;
To a stranger's heat in life's great
mart.

It may carry its pain or its balm.

You can never tell, when you do
an act,

Just what the result will be.

But with every deed you are sow-
ing a seed.

Though its harvest you may
never see

Each kindly act is an acorn drop-
ped

In God's productive soil,

Though you may not know, though
the tree shall grow,

And shelter the boughs that toil.

You can never tell what your
thoughts will do.

In bringing you hate or love,
For thoughts are things, and their
airy wings

Are swifter than carrier doves.
They follow the law of the uni-
verse

Each thing must create its
kind,

And they speed o'er track to bring
you back

Whatever went out from your
mind.

The Salve That Heals

without leaving a scar is DeWitt's. The
name Witch Hazel is applied to many
salves but DeWitt's Witch Salve is the
only Witch Hazel Salve made that con-
tains the pure unadulterated witch
hazel. If any other Witch Hazel Salve
is offered you it is a counterfeit. E. C.
DeWitt invented Witch Hazel Salve
and DeWitt's Witch Hazel is the best
salve in the world for cuts, burns, brus-
hes, tetter or blind, bleeding, itching
or protruding piles. Sold by all drug-

CAUSE OF LOCKJAW.

Lockjaw, or tetanus, is caused
by a bacillus or germ which exists
plentifully in street dirt. It is
inactive so long as exposed to the
air, but when carried beneath the
skin, as in the wounds, caused by
percussion caps or by rusty nails,
and when the air is excluded the
germ is aroused to activity, and
produces the most virulent poison

known.

To Cure a Cold in One Day

DYKESBURG

The sides of the Old Bank are under construction, the building will be ready to complete.

Mr Henry W. Franklin & wife, and Mrs. Smith, daughter of J. A. W. Smith of Louisville, have erected a house at their new home in the community of Dykesburg, keeping in the house Mr. Henry Franklin's wife, with several of their long time neighbors. The old house was used as a schoolroom, and there are many worthy young people here.

The last meeting of the Morgan Lodge, F. & A. M., in the new Masonic Temple completed. The members of the Lodge are justly proud of their new home.

Hon. Cattell J. Price, of Frankfort, and County Auditor Carl Henneman addressed the people of the city well on the evening of the 10th.

Dr T. L. Phillips, owner of a saddle horse in the several and handsomest stables in Dykesburg.

Mr Tom Campbell, who presided at the meeting of the grand council of Louisville, Mr. Campbell is a native of Eastern Missouri. He was not a member of the laying of the cornerstone of the Masonic Temple Home in Louisville in 1850, but was also present at the laying of the cornerstone of the Grand Lodge Hall that date.

J. H. Clifton is exonerated from Buffalo, N. Y., about the 22nd inst. It is hoped he will not be greatly improved in health.

S. H. Cassidy has been in Dykesburg for the past two weeks.

Under the leadership of Dr. T. L. Phillips, Judge D. E. Jones is slowly recovering from his recent dangerous illness. His family do not expect his appearance in public for a few weeks. Friends for the most part considered them as dead.

Mr. Campbell, who presided at the Dykesburg meeting of the grand council of Louisville, and his son, Mr. S. H. Cassidy, are now in the re

gion of Marion, Ky., where they are attending the meetings of the grand council of Louisville.
